Correction: contactless radar-based heart rate Estimation in palliative care – a feasibility study and possible use in symptom management

Stefan G. Grießhammer^{1*†}, Anke Malessa^{1†}, Hui Lu^{2,3}, Julia Yip^{1,4}, Julie Leuschner¹, Florian Christgau¹, Nils C. Albrecht², Marie Oesten^{1,4}, Thanh Truc Tran⁴, Robert Richer⁴, Maria Heckel¹, Bjoern M. Eskofier⁴, Alexander Koelpin², Tobias Steigleder^{1†} and Christoph Ostgathe^{1†}

Correction: BMC Palliat Care 23, 273 (2024). https://doi.org/10.1186/s12904-024-01592-3

Following publication of the original article [1], the author reported that in the Abstract, Result section, the sentence:

"The HR difference was within \pm -5 bpm for 53,583 out of 57,048 beats (93.93%) and within \pm -8.2 bpm (\pm 1.96 times the SD of the mean) in 55,439 beats (**97.25%**), respectively."

Should be.

"The HR difference was within \pm -5 bpm for 53,583 out of 57,048 beats (93.93%) and within \pm -8.2 bpm (\pm 1.96 times the SD of the mean) in 55,439 beats (**97.18%**), respectively."

The calculation 55,439/57,048*100% equals to 97.18% and NOT as written 97.25%. The original article has been updated.

Published online: 22 April 2025
